LABORATORY EXAMINATION REPORT

FORENSIC ALCOHOL SECTION

7717 Golondrinas Street  
Downey, CA 90242

Agency: West Valley C.H.P.  
File Number:

Lab Receipt:  
Subject: KIM

West Valley C.H.P. submitted a sample for blood alcohol analysis.

**Examination Conclusions**

**The sample has a blood alcohol concentration of 0.16%.**

The blood alcohol concentration reported above represents a truncated average value of duplicate analyses measuring 0.165% and 0.166%. The average value of the duplicate analyses with its expanded uncertainty is 0.165%  $\pm$  0.009%. The expanded uncertainty is reported at a 99% confidence level.

**Evidence Submission and Disposition**

Following the analysis, the evidence was sealed for return to the submitting agency. Laboratory notes and supporting data exist in the case file at the laboratory.

**Laboratory Examinations and Background**

The sample was tested on 7/6/2018 for the presence and amount of ethanol by headspace gas chromatography. Headspace gas chromatography is a separation technique used to identify chemical compounds and measure the amount of these chemical compounds present in a sample.
